Precision Milling

Our complete tub is constructed using old age Cooperage procedures.

Our Hot Tub Staves and Floor are precision milled. Our own unique *Ball & Socket Joint* is angled to the tubs diameter. Our Ball & Socket joints provide more sealing surface than a butt or tongue and grooved stave joint. Our hot tub floor is milled with a Wedged Tongue and Groove joints and provides a stronger and tighter sealing tank.

TANK SPECIFICATIONS:

- 2" nominal Clear All Heart Western Red Cedar
- Ball & Socket Staves Joints with "V" exterior detail and smooth interior surface
- Tongue and Groove Floor Joints
- Stainless Steel Compression Bands
- 4"x 6" nominal pressure treated tub support joists
- 2" nominal Benches, Support Cleats, and Stainless Steel screws
- Completely pre-cut, pre-drilled, marked and packaged ready for assembly
